FOOD *supply chain vision*

“WE AIM TO IMPROVE AVAILABILITY AND REDUCE COST IN OUR FOOD SUPPLY CHAIN, WHILE MAINTAINING FRESHNESS AND QUALITY.”

Units of Distribution

Using a complex modelling tool to optimise the number of units we put in a tray to deliver sales, waste and handling benefits.

FOOD *supply chain vision*

“WE AIM TO IMPROVE AVAILABILITY AND REDUCE COST IN OUR FOOD SUPPLY CHAIN, WHILE MAINTAINING FRESHNESS AND QUALITY.”

Long Life Ambient

Driving an improvement in availability and reducing our cost of sales through optimising our Long Life Ambient network.

FOOD *supply chain vision*

“WE AIM TO IMPROVE AVAILABILITY AND REDUCE COST IN OUR FOOD SUPPLY CHAIN, WHILE MAINTAINING FRESHNESS AND QUALITY.”

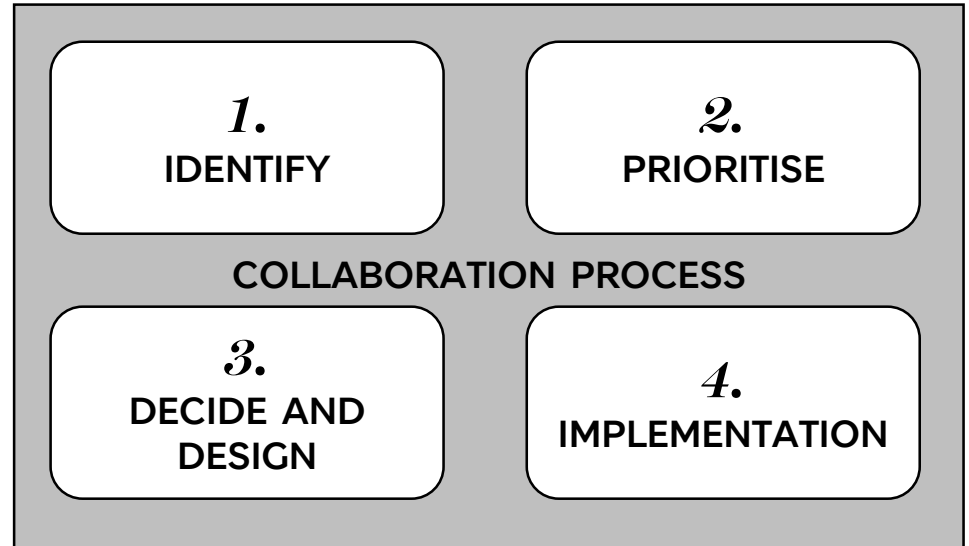

Supplier to Store Flow

Smooth the flow of cold chain and short life ambient volume through the supply chain to release network capacity and deliver end-to-end benefits.

COLLABORATION *with our suppliers*

“We are committed to building and maintaining collaborative, sustainable relationships throughout our supply chain.”

WHAT IS THE *future of retail*?
